*"Be present in the moment."*

## EVALUATION SCHEME

Daily Quizzes/Homework/Assignments	10%
Major Quizzes:	25%
Unit/Chapter Tests:	35%

MIDTERM: 10%

FINAL EXAM: 20%

## MATERIALS

Graphing Calculator: TI 83 or TI 84 series

Graph Paper

- ❖ All of the course materials that are essential for learning will be provided. Items such as copies of class notes (daily lessons), extra practice sheets and helpful websites, will be posted on my website <http://molshaski.wixsite.com/math>. If you desire printed copies of these materials, you will need to print on your own.
- ❖ My website can be accessed from HTA's homepage as well. Click on the icon on the right (below the picture of our school) that brings up teacher webpages, and click on my name.

## ATTENDANCE

- ❖ Here at HTA, we want the most success for all of our students. **Attendance is the most important factor for each student's success.** Please notify me of planned absences in advance, especially if you are going to be missing a major quiz or test.
- ❖ If you miss a class, **YOU** are responsible for finding out what you have missed, obtaining notes for the lesson from another student and completing the homework.

Once you have done this, see me if you have questions. You are responsible for missed work during an absence.

- ❖ Take ownership of your learning and make learning a priority!
  - If you have a planned absent, see me in advance so you know what you will be missing and can work on it during your absence.
  - If you are having difficulties, see me at scheduled help, or set up a time with me to get extra help.

## **HOMEWORK**

---

- ❖ ***Homework is vital for mastering and reinforcing content***, and therefore, is part of the final mark. Completion of homework will improve your success on quizzes, tests and exams. There will be homework checks. Parents will be notified if homework is not done.
- ❖ If homework is not finished, then it is the expectation that the student completes the work for the following day.

*Wishing you success and a great semester!*
